EXPERIENCE

Avadhana Softtech **Nov 2025 – Present**
Full-Stack Developer Intern *Mumbai*

- Built responsive frontend interfaces and connected them to backend logic written in Core Java and Python.
- Handled API integration and fixed cross-browser inconsistencies so the UI held up across Chrome, Firefox, and Edge.
- Worked through tickets in an agile cycle, shipping features after regular code reviews.

Positive Quadrant Technologies LLP **Apr 2025 – Oct 2025**
Full-Stack Developer Intern *Hybrid, Mumbai*

- Developed dynamic web applications and interactive modules in PHP and Laravel, contributing to both the frontend and backend.
- Added new features, tracked down and fixed bugs, and reworked slow database queries to bring response times down.
- Designed database schemas and worked day to day with Laravel's MVC structure, migrations, and Eloquent ORM.

CodSoft **Feb 2024 – Mar 2024**
Python Developer Intern *Remote, Mumbai*

- Completed a series of structured Python assignments and mini-projects, delivering each one within the program's deadlines.

PROJECTS

Akshar Connect React.js · FastAPI · Python · REST APIs

- Built reusable React components for a community-management platform and wired them to FastAPI endpoints, syncing with the backend team on API contracts and smoothing out how data loaded across the app.

Akshar Ecommerce MongoDB · Express.js · React.js · Node.js (MERN)

- A food-ordering app with user authentication, menu browsing, and order management, served through REST APIs behind a responsive React interface.

TechUpgrad PHP · Laravel · MySQL · Bootstrap

- An EdTech platform for course management and training delivery, built on Laravel with a Bootstrap frontend and MySQL for storage.

Portfolio React.js · Tailwind CSS · JavaScript

- A responsive personal site bringing together projects, technical skills, and certifications.
